EXPERIENCE

Celebal Technologies — *Associate Data Engineer*

Jan 2020 - May 2020

Made a machine learning model on Real-Time Demand Forecasting, using Pyspark framework with Databricks and Microsoft Azure.

Ducat — *Project Intern*

May 2019 - June 2019

Built an age and gender prediction model on Machine Learning with the help of OpenCv and TensorFlow.

Gathered and predicted models on various datasets.

EDUCATION

Manipal University Jaipur, Jaipur — *Btech*

MONTH 2017 - MONTH 2021

PROJECTS

Demand Forecasting — *ML, Pyspark, PowerBI, Azure*

This Project uses MLlib to help enterprises predict sales and even get a detailed analysis of their ongoing sales paradigm with the help of a BI tool.

Predicting Age and Gender Using OpenCV — *ML*

This Project uses a Wide Residual Network and opens a real time web cam through which the Network determines the Age and Gender of the person

SKILLS

Machine Learning

Python and C++ proficiency

Power BI

Game Development in Unity

Budgeting and finance.

Team Leadership

CERTIFICATIONS

Machine Learning

Databases

Python

Unity

HONOR & AWARDS

Won Third Prize in MUJ
Entrepreneurial Innovation
Challenge
